Reports | Data warehouse

Use the data warehouse to build reports that provide insight into your enterprise environment. With the Intune data warehouse you can access:

- Historical Intune data
- Data refreshed on a daily cadence
- A data model using the OData standard

Microsoft Power BI Online

You can also use Microsoft Power BI Online to Create reports. This pre-build app contains a basic set of custom reports to get you started. Get Power BI app

Third-party reporting services

The Intune Data Warehouse lets you create custom reports from your intune data using a reporting service that supports OData feeds.

OData feed for reporting service
